Dear Legionnaires,

The children at the American Legion Children's Home would like to thank you for your Christmas blessings. The children were very excited with all the gifts that were given to them. We have some children who have never had a Christmas and we are thankful that you helped provide them with that opportunity. Thank you again for thinking of us we greatly appreciate it. It truly makes a difference.

As we celebrate our 80th year of service, we are making great progress and are realizing even more the amazing potential of such a wonderful establishment. All 62 children at the home are enjoying our many programs, including our newest equine therapy and the various activities held in our gymnasium. We understand we could not have come this far with out the love and care provided by you and others that believe in us.

Please accept the utmost gratitude from the staff and children of the American Legion Children's Home.

Sincerely,

Jimmie Reeves
Social Services Director
